Confidence in Your Connections

Today, as the world becomes more and more connected, the role physical infrastructure plays in the success of your business has never been more critical. This kind of infrastructure can be a strategic asset for your company, or it can be a liability.

At Panduit, we believe that connections are the lifeblood of your business. Our goal is to give you complete confidence in your infrastructure so you can connect your company to its full potential and be inspired to take on any challenge or opportunity that comes your way – today, tomorrow, and in the years to come.

That's why we make more meaningful connections. Do you have confidence in yours? With Panduit as your partner, you will.

Unlock the Full Potential of Your People, Systems, and Technology

60 YEARS OF SMARTER SOLUTIONS

Panduit is the right partner to guide your business to what's possible. For more than 60 years, our 5000+ infrastructure experts around the globe have developed thousands of patents, products, and solutions that not only help industry leaders keep pace in a dynamic economy, but inspire them to set and achieve ambitious goals.

Our people are curious and strategic, experienced and insightful. Above all, we are passionate problem-solvers who are dedicated to helping our customers in 112 countries make the connections that matter most.

We are 100% privately owned and completely independent, which means we are dedicated to building solutions that focus only on you and your best interests.

CONNECTING WHAT'S CRITICAL

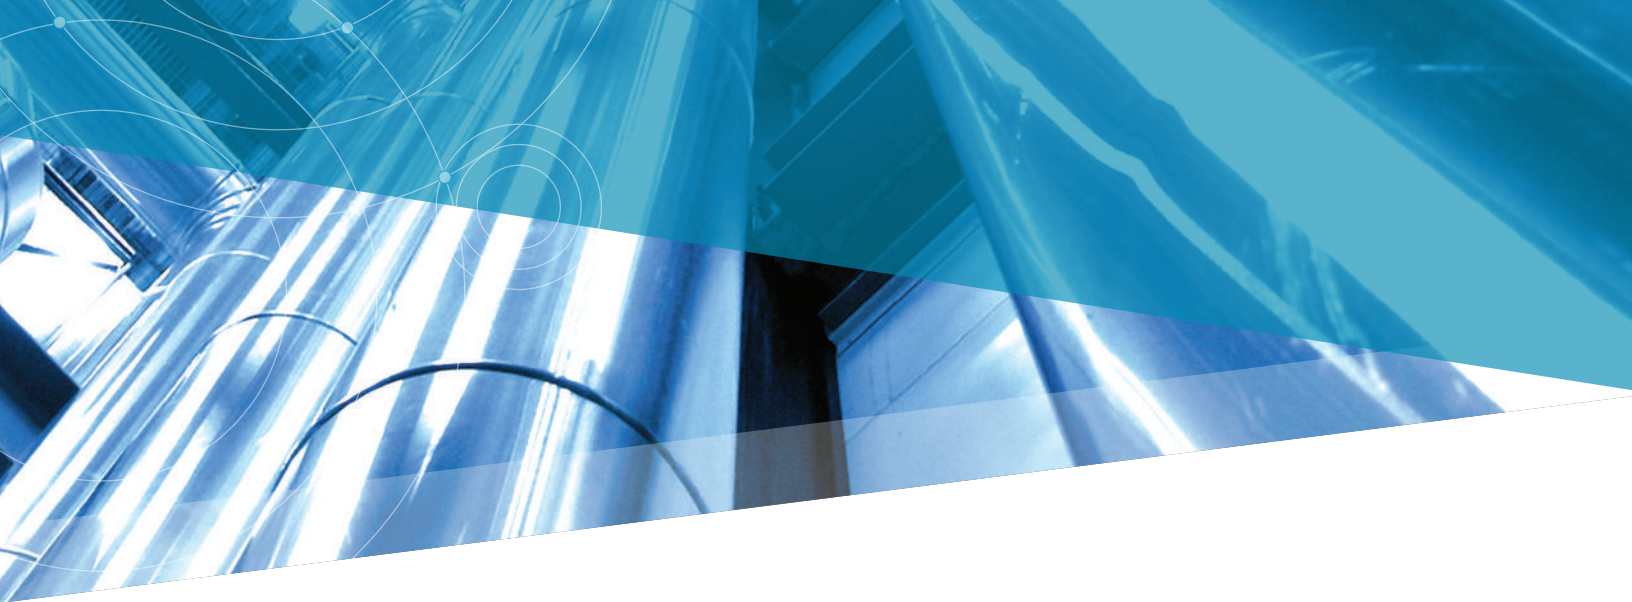

Panduit is the leader in creating smarter physical, electrical, and network infrastructure for today's hyperconnected world. Our unique experience across a wide spectrum of industries gives us the insight and expertise to offer a full range of strategic capabilities.

As a trusted advisor, we help customers rethink what their infrastructure can do. From the data center to the office to the plant floor, we design, build, install, and service innovative solutions that turn connectivity into a competitive advantage. We take great pride in all of our products and solutions. Along with our strategic partners around the globe, we stand behind them every step of the way.

WHAT WE DO

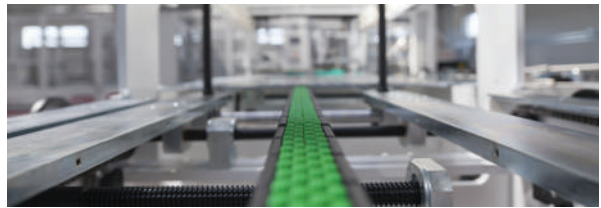

Internet of Things

Our focused IoT application kits, analytic tools, and global partner ecosystem allow us to quickly deploy simplified IoT solutions that maximize network availability and performance while addressing security and accelerating valuable data insights.

OEM Infrastructure

Panduit helps OEMs and contract manufacturers organize, connect, and protect electrical wire and cabling systems for optimum performance. We are your single-source partner to achieve the lowest total cost of ownership.

Industrial Infrastructure

Panduit provides a reliable end-to-end physical layer infrastructure from the enterprise to the edge that simplifies industrial network deployment for better equipment optimization and broader risk management.

Data Center Infrastructure

As industry leaders in data center technology, Panduit helps customers world-wide to conquer efficiency and agility challenges with our extensive portfolio of physical infrastructure and intelligent management solutions.

Industrial Construction/MRO

We understand the challenges of power cabling infrastructures within heavy-duty industrial environments, and our solutions reduce installation time and cost while improving operational performance and safety.

Enterprise Infrastructure

Our solutions simplify the design, installation, and operation of the enterprise network with products that deliver best-in-class network performance while reducing operating costs.

THE POWER OF PARTNERSHIPS

When you partner with Panduit you partner with a global ecosystem of industry leaders. By leveraging this commitment to collaboration, we connect your business with services that span the project lifecycle, from planning and design to delivery, deployment, maintenance, and operation.

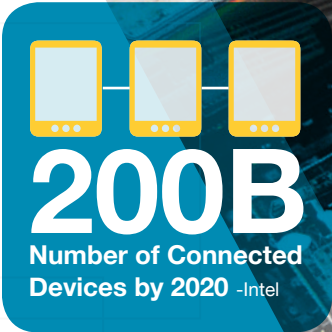

Our strategic alliances include industry leaders like Cisco Systems, Rockwell Automation, General Cable, and Dell EMC. When paired with the people at Panduit — people with deep experience in your industry and the engineering curiosity and expertise to ask the right questions — you end up with smarter, scalable solutions that help your business thrive today and in the years to come.

CONNECTING TO WHAT'S POSSIBLE

Problem-solving isn't merely an approach, it's a way of life. It's how we look at the world all the time. We see flaws and inefficiencies, and itch to replace them with elegant solutions. We're hardwired to help others connect their world in more meaningful ways. It's our passion and we're good at it.

Our solutions unlock the full potential of your people, systems, and technology. This is how we make more meaningful connections. Connections that will take your business to the next level and allow your people to achieve more than they ever thought possible.

We're Ready for What's Next. Are You?

We have the expertise and experience to help you get there. Let's connect.
