°S STELPRO

MAESTRO™

ORCHESTRATING COMFORT

COMPATIBILITY

MAESTRO is compatible with all electric heating units, including baseboards, convectors and wall fan heaters and acts as a conductor to control your home's comfort. Combining the **MAESTRO** thermostat with the **MAESTRO** controller • thermostat will make your home smart in no time!

INSTALLATION

Your old thermostats can easily be replaced by **MAESTRO** thermostats, which are as easy to install as any other thermostat. All you need to do is connect them to the network!

AVAILABILITY

Designed and manufactured in Canada, **MAESTRO** is available from electrical distributors. The easy-to-use and intuitive **MAESTRO** app can be downloaded for free from the App Store and Google Play.

Available on the **App Store**

**THE MOST COMPREHENSIVE SMART HEATING SOLUTION FOR YOUR HOME**

MAESTRO™

MAESTRO is a smart controller • thermostat for electric heating systems designed to help you save money, even during our harshest winters.

With the controller • thermostat or your smartphone, MAESTRO lets you personalize the comfort of every room of your house while reducing unnecessary energy costs up to 25%.

UP TO 25%* IN ELECTRICITY SAVINGS AND A BIG HELPING HAND FOR THE ENVIRONMENT.

UNIQUE GEOFENCING FEATURE

MAESTRO recognizes the presence of the occupants of the property within a radius of two kilometers and adjusts the temperature according to their movements.

ROOM GROUPS

With the MAESTRO settings, you can customize room heating, individually or by room groups.

PERSONALIZED ACTIVITIES

MAESTRO adjusts the desired temperature according to your schedule and events.

ANTICIPATED START

MAESTRO reacts quickly to sudden temperature changes and anticipates when to start heating to obtain the desired temperature in a given room.

* Study conducted by an independent university team

CONNECTED ECOSYSTEM
